

Air Blow Gun – PAG-051

SPECIFICATIONS

| | |
|----------------------------|---|
| Item : | Air Blow Gun |
| Material of Construction : | Aluminium Body |
| Body : | Heavy Duty |
| Inlet : | Female Thread with additional Hose Nozzle |
| Port Size : | 1/4" |
| Media : | Compressed Air |
| Nozzle : | 100 mm Long |
| Operation : | Lever/Trigger Operated |

TECHNICAL DATA

| Model No. | MoC | Port Size | Fluid | Temperature | Working Pressure |
|-----------|----------------|-----------|----------------|-------------|------------------|
| PAG-051 | Aluminium Body | 1/4" | Compressed Air | 5 to 60° C | Up to 8 Bar |

* Under Standard Condition

APPLICATIONS

- Blowing off chips in machine tools
- Foundries
- Service Stations
- Assembly lines
- Painting (Part cleaning)
- Textile mills
- Injection moulding machines (cooling of moulds)
- Pressure die casting machines
- And many more Industrial uses

BENEFITS

- Easy handling
- Compact Size
- Attractive Design
- Good Flow and Characteristics
